

### Request for help

The Parish Council have received many complaints regarding the parking and road blockages in Rosedale Abbey both where trade is affected due to lack of available parking or access requirement for suppliers, agricultural and safety/emergency vehicles.

With this in mind the Council made an application to NYMNPAs for planning permission on land at Alder Carr Lane to form a car park. Initially the car park was to contain a MUGA for use by both the community and visitors to the area.

Following the initial granting of the application and discussions with the planning authority conditions had been placed on the approval which reduced the viability of both a MUGA and number of parking to benefit the community.

Consultation followed and it was agreed that rather than a MUGA a community play area would be a better provision catering for more members of the community and providing a welcome community space for residents and visitors alike. The Car Park will also assist in removing some of the congestion to the village ensuring that businesses can both (hopefully) increase footfall and those whose business relying on regular progression

through the village for deliveries and workflow.

By reducing congestion, it is also hoped that safe and speedy passage of emergency vehicles can continue.

The Council are pleased to announce that we have already had offers of voluntary labour and some businesses have also pledged either donations of equipment for use in the construction of the carpark or reduced or heavily subsidised materials for use. Grants and donations have also been received but to make the build speedy efficient the Council would like to ask for your help.

Please fill in the form and return to;
